Sodium	0.20%

Micro Minerals	
Iron	130mg/kg
Iodine	1.4mg/kg
Copper	15mg/kg
Manganese	50mg/kg
Zinc	180mg/kg
Selenium	0.4mg/kg

Vitamins	
Vitamin A	20,000iu/kg
Vitamin D	2,000iu/kg
Vitamin E	275mg/kg
L-carnitine	n/a

Mineral values stated above are total values within the product including added and naturally occurring minerals from grains, fibres and other raw materials. Such materials are naturally variable and, as such, total values may vary slightly.

### Feeding Guide:

Introduce the new diet gradually over a period of 5-7 days. Please remember that all pets are individuals and their feeding requirements will vary with age and lifestyle. The feeding guides are intended as a starting point and can be adjusted to suit your dog. Trophy Lifestyle Premium dog foods should be fed dry or moistened with water to the consistency that your dog prefers. Typically, a mix of 2 parts warm water with 3 parts of dry weight of food is preferred. Adjust the amount fed to keep your dog in a lean, active condition.

The figures shown are the daily requirements in grams. All dogs should be fed twice per day, preferably in equal amounts. Ask your Trophy Nutritional Adviser for a FREE measuring cup, marked with the feeding rate for your dog. As our foods

TPF/DS/XTP/101119

are made from natural ingredients, the density of the product can vary from batch to batch. It is therefore recommended that you check the amount fed with each new bag. Remember a complete diet looks less as it is concentrated; do not be tempted to overfeed! Suitable for all breeds. Always ensure that clean fresh water is available. Store cool and dry.

Age-Months	2	3	4	6	8	10	12	18
Adult Size	Daily Requirement							
5kg	<90g	90-95g	95-100g	100-105g	105-110g
